

## MEMORANDUM

**Date:** April 27, 2021  
**To:** Residency Program Committee  
**From:** Dr. Jose Francois, Department Head of Family Medicine  
**Re:** Entrada Community

---

The university will be retiring RedDot this year, which is the platform that has been used to host the existing DFM webpage. Units with active RedDot webpages have been asked to move relevant content (published via RedDot) to an alternative appropriate location:

- Drupal – university platform for advertising purposes
- UM Intranet – access to university resources with UM account
- UM Learn – access to university resources with UM account
- unit specific site – Entrada

To accommodate these changes the DFM has chosen a public Entrada community to host a variety of content that will no longer be supported through the public university platform (Drupal).

Please note that this community can be accessed without logging into Entrada. Some features, such as “Expand All” and displayed document counts of folders is currently only functional when logged on, however all content can be accessed from any device by selecting the appropriate folder. The Entrada community can be accessed via this link or by selecting “Department of Family Medicine” under “Communities” when logged onto your Entrada account:

[https://entrada.radyfhs.umanitoba.ca/community/family\\_medicine](https://entrada.radyfhs.umanitoba.ca/community/family_medicine)

Please add this link to your favorites for easy access.

The layout and content may continue to change as the community is still under development. If you would like to provide some feedback on the community, please submit to [DFM@umanitoba.ca](mailto:DFM@umanitoba.ca)

Instructions to access and navigate DFM Entrada Community:

- [Video Instructions \(without log-in credentials\)](#)
- [PDF Instructions \(without log-in credentials\)](#)
- [PDF instructions \(for users with log-in credentials\)](#)
